

## **April 2011 Online Board Meeting**

### **Jake Hortenstine Replies**

Everything looks good I approve all attached would like more info if possible on IDOA/AISWCD, are they talking consolidation of districts. I also approve time sheets per Liz recommendations to pay.

### **Craig Opfer Replies**

I think the \$8.00 for the drill rental is fine.

### **Susan Holdeman Replies**

Tony's recommendation of \$8.00 for the truax is fine with me. I have no other comments.

### **Liz Heinzmann Replies**

Hi everybody – I can't see much because the sun is so bright! Hope it lasts for a bit. All reports look fine to me.

I agree with Susan on the Truax rate of \$8.00 - Nothing else to discuss at this time.

### **Karen's reply:**

Jake asked if IDOA was recommending the consolidation of the districts.

The only thing I know right now is this:

As far as we know right now they are not talking about consolidating the district. But IDOA is really encouraging the state association to come up with a level funding source because of all the cuts in the budget over the last few years.

The state association has had a couple of different idea's for funding and they are in the process of talking to legislators about them. Just to see what the chances are of getting anything passed to help the district. But then again who knows what will come of it. Hopefully something that is proposed will have a shot at getting passed through the political lines.

So, we will have to wait and see just what the next recommendation or idea to come out of IDOA is.
